

CHILD Are Bubs Mugs? PETITION

Perhaps, Innocent Souls in Need of Care Rather than DESPAIR!

Hello, I'm an 18-month-old, not quite two,

With my mum, I'm learning to poo.

What is that yellow box hanging on the wall,

In this Maccas toilet stall?

Somewhat shy about her reply,

Never wanting to lie, the truth she didn't her daughter deny.

It is for syringes to be put,

Rather than the floor where they may stick your foot.

But you make me wear shoes that I don't like,

Does this mean I can take them off now for I am protected against their spike?

Not at all little one for some may not use the bins,

And drop them on the floor without a caring whim.

What are the syringes for may I ask?

The mother sighed and thought her explanation was going to be a heavy task.

Some people take illicit & illegal drugs with syringes, to get high,

For they struggle in their day and often about their life they sigh.

So, they don't really hurt said the girl who had her mother in a twirl,

They do hurt my child, please stay illicit & illegal drug free for you are our precious girl.

Maccas do so much good mum, why do they promote drug use in this way?

For like me, kids are curious about anything in their day.

They should put both sides of the story your dad would say,

Put up a sign to promote a drug free world for all one day.

Is that why people pray,

When big business is cruel in this way?

PLEASE CONSIDER THE CHILD PETITION ON THE REVERSE

If you can see merit in removing the needle stick (sharps) bins from all public areas, & the display of a drug free sticker, (in toilets or otherwise) complete the petition, send it to all nominated parties via post and or Email. I believe in age appropriate education, "not child exploitation". N.B. Insulin users carry their own needle disposal bins.

CHILD PETITION

McDonald's Australia Head Office
Your Local Mayor/Councillors
Your State/Territory Member
Your Local Federal/Senate Member
The Prime Minister of Australia

*At birth there are 'green shoots' of life,
Amongst the pain, blood & Midwife.
It is but a short time between then and strife,
Self-inflicted or society's greedy knife.*

*I once was an impressionable child,
But somewhat older I'm quite wild.
For the illicit drug trade is sinking its grubby teeth,
Into my child's curious beliefs.*

*A needle stick collection bin (sharps) in a toilet cubicle,
Feeds the curiosity of a child.
Who seeks a life path not to self-harm or ridicule.*

All illicit drug harm needs demotion, not promotion to those born tame and mild.

The 1 cent Principle: If a man has \$999,999.99 cents, he'd love another 1 cent piece to have \$1,000,000.00 and be a millionaire.

Each Signature is similar to a 1 cent peice

Reasons for sharps bin. To put insulin injection needles or Heroin needles in. If the user drops it on the floor you are no better off. Each needle use requires a responsible disposal.

PETITION

I the under signed agree strongly with the observations expressed above and in 'Are Bubs Mugs' (attached) and call for the legislators to decree it to be illegal for the display of sharps containers in all public toilets and any other public areas, & in the very least to display the above W.A.I. sticker.
